MODULATING FURNACE

Maybe the best kind of furnace is one you never have to think about. Imagine a cozy, quiet home where efficient energy use is a given. Where indoor air quality is never a worry. And all you do is relax and get comfortable.

At York, that's exactly the kind of furnace we'd want in our homes. And that's why we're happy to introduce Affinity Modulating Furnaces, an ingenious line that provides noticeably superior comfort while quietly reducing your energy consumption. All in sleek, attractive designs that couldn't be easier to use.

Whether you're looking to upgrade your comfort or your efficiency, our new Affinity Modulating Furnace delivers both.

This feels good.

The Affinity Modulating Furnace is the only line that will truly modulate in 1% increments. And it's available in both constant and variable speed blower combinations, so your home stays noticeably more comfortable throughout the day.

Use less energy, pay less taxes.

On all our models, achieving 95% AFUE efficiency rating qualifies you for federal energy tax credits. It also means you'll see significant energy savings over your older, wasteful furnace.

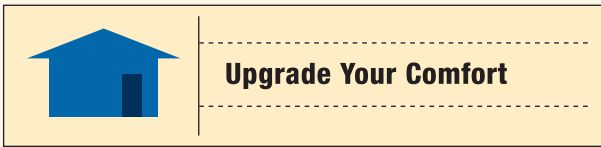

Do you hear something?

These furnaces operate quietly. So quietly in fact, you may even question if the furnace is operating. Don't worry. It's operating—so efficiently, it's earned the Good Housekeeping Seal of Approval.

Breathe easy.

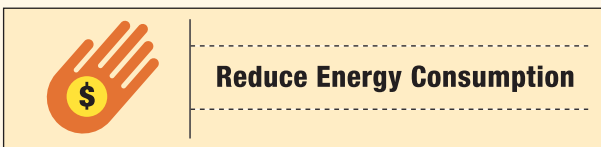

Longer, more efficient run cycles have an added bonus, as the air in your home is filtered over longer periods of time. The result? Improved air quality throughout your home.

We start with precedent-setting design. These furnaces modulate in 1% increments. So your comfort level never wavers. And because Affinity Modulating Variable Speed Furnaces offer ClimaTraK™, comfort settings can be customized by a York Dealer for your region's climate and conditions. The result: When paired with an Affinity Air Conditioning System, you enjoy constant humidity control and comfort, even in the extreme days of summer.

It also means silence. The Affinity is exceptionally quiet, so you notice little to no sound throughout the day and night.

So breathe deep. No, we really mean it. Take a deep breath and you'll also notice that the Affinity Modulating Furnace can actually improve the air quality in your home because efficient, longer run cycles filter the air over longer periods of time.

Here's where things really get good. Your modulating furnace is rated 95% AFUE, which stands for Annual Fuel Utilization Efficiency. That simply means 95% of the fuel you're paying for is used to heat your home, while only 5% escapes as exhaust—a remarkably superior ratio. Compare that to a standard efficiency model rated at 80% and wasting

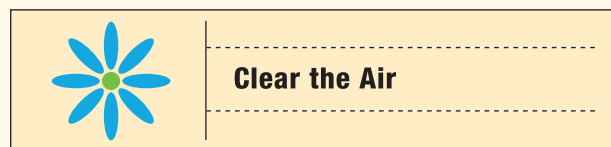

up to 20% of the fuel you pay for. Best of all, that 95% AFUE rating qualifies you for federal energy tax credits. As in more cash you get to keep.

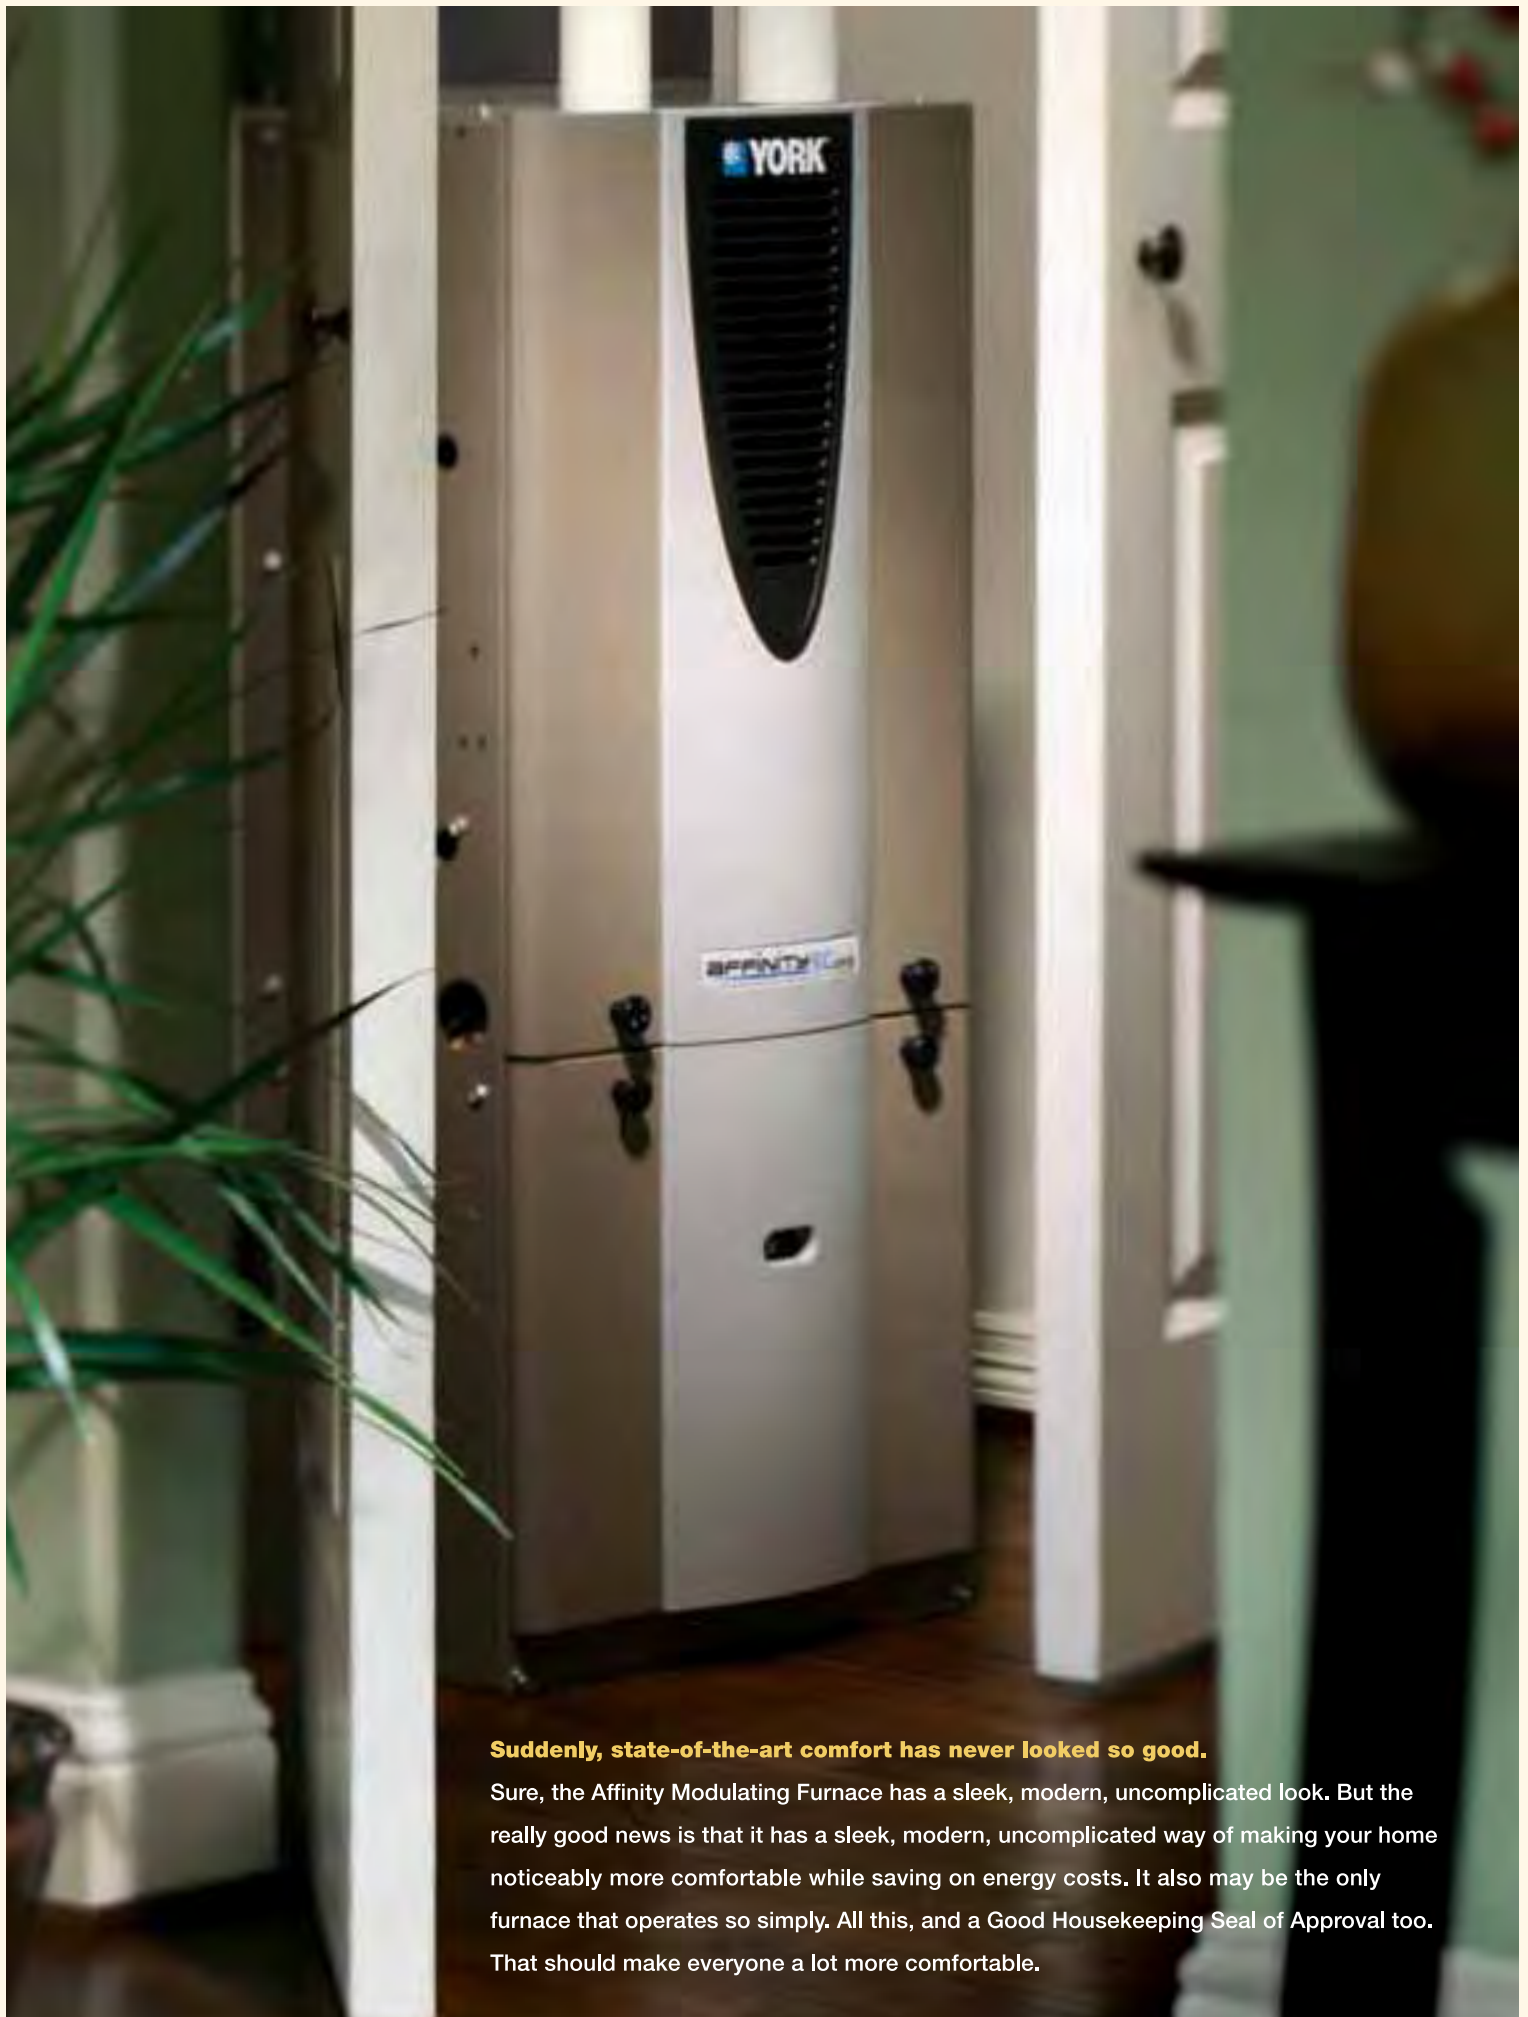

We've designed the Affinity Modulating Furnace with everyone in mind. Even though the sleek Affinity cabinet hides the most sophisticated technology on the market, it requires only a single-stage thermostat to operate. Setup will be fuss-free and fast.

Energy-efficient engineering. Quiet, no-brainer operation. Attractive design. The Affinity Modulating Furnace is comforting just to think about, isn't it?

At York, we think comfort goes beyond simple temperature control. That's why we offer so many new ways to improve your home's air quality. From ventilation systems to electronic air cleaners and more, York's Total Comfort System® approach means total peace of mind. You never have to worry about unclean air, hidden mold or energy costs again. And your family can relax and enjoy a genuinely clean, clear, comfortable home. Isn't that a breath of fresh air? Contact your York Dealer to learn more.

Suddenly, state-of-the-art comfort has never looked so good.

Sure, the Affinity Modulating Furnace has a sleek, modern, uncomplicated look. But the really good news is that it has a sleek, modern, uncomplicated way of making your home noticeably more comfortable while saving on energy costs. It also may be the only furnace that operates so simply. All this, and a Good Housekeeping Seal of Approval too. That should make everyone a lot more comfortable.

Affinity Modulating Furnace

MODEL	DESCRIPTION	HEATING INPUT RANGE	AFUE*
PM9	Modulating Furnace—Constant Speed	60-120 Mbh Input	95%
PC9	Modulating Furnace—Variable Speed	60-120 Mbh Input	95%

How to stay comfortable for years to come.

York and your York Dealer are proud to offer the YorkCare™ Comfort Plan. It's designed to maintain your system as well as your peace of mind. With up to 10 years of total coverage available, you can ensure your unit is effective and efficient for years to come.

What's more, your York Dealer offers maintenance agreements that provide upkeep while maximizing the warranty provisions. Ask about the YorkCare™ Comfort Plan. A little extra coverage is always a comforting idea.

Long story short: the history of York design.

You've probably enjoyed York engineering for years without even knowing it. We have, after all, designed and implemented heating and cooling systems in some the world's most famous structures, including the U.S. Capitol

**OVER
130
YEARS
OF DESIGN
INNOVATION
AND COMFORT**

building, India's Taj Mahal, the Sydney Opera House, the entire U.S. Navy

nuclear submarine fleet, and even venues such as your local mall and corner bank.

■ There's a reason people trust us

with the big jobs. We've been doing this a long time. Over 130

years, in fact. In that time, we developed the first successful room air conditioner and cooled the world's first theater, hotel and office building.

We're constantly leading the industry in our design and our technology. And our commitment has earned our products

the Good Housekeeping Seal of Approval. No matter what the scale, chances are we've developed an efficient, durable and effective solution for it.

■ Which is all a way of saying this: You can depend on York to give you the choices you're looking for and

the designs that will keep you comfortable year-round, year after year.

■ Want to know more? Contact your York Dealer. He's got 130 years of innovation to tell you about.
